K. League is dead for 1915.  
Lieut. Gov. McDermott will speak  
here Monday.

A local option election in Pike county  
will be held May 15.

The fire loss at Hazel is put at  
\$55,000, with \$35,000 insurance.

San Francisco recently threw 25,  
000 fraudulent scales into the bay.

While waiting for something else  
to start up, suppose we swat the fly.

Col. Green H. Champlin is being  
prominently mentioned for school  
trustee.

An ostrich in the zoo at Nashville  
laid an egg this week that weighs  
five pounds.

The Kentucky 1915 derby, worth  
\$15,000, will be run at Churchill  
Downs May 8.

With all the fighting going on  
around Ypres, somebody is liable to  
be wiped out.

The attendance at four Sunday  
Schools in Irvine was 436, Methodists  
leading with 228.

The Sunday School attendance in  
Barneset April 25 was 2,968, Metho-  
dists leading with 611.

There is a pretty straight tip that  
there will be only five candidates for  
governor by this time next week.

The attendance at Madisonville's  
five Sunday Schools April 25 was  
1,617, Baptist 602 and Christians  
second with 505.

A military expert says Germany's  
extreme military strength is 12,000,  
000 men, young and old, every man  
capable of holding a rifle.

The constitutionality of the Louis-  
ville segregation ordinance was ar-  
gued before the Court of Appeals  
Tuesday and will soon be passed up-  
on.

Mr. Sterling's 11 saloons will close  
May 25, under the recent Court of  
Appeals decision. They will take 30  
days allowed them to "leaven the  
lump."

Sunday School records in Kentucky  
towns Sunday were reported as fol-  
lows: New Castle 1,029, Mt. Ster-  
ling 1,420, Milton 490, Paris 1,729,  
Nicholasville 931, LaGrange 613.

Gen. Henry A. Tyler, of Hickman,  
was one of Forrest's men, entering  
the army at 23 years of age, a young  
lawyer. He died this week leaving  
a large estate to his only child, Rob-  
ert A. Tyler.

The Southern Commercial Con-  
gress at its opening session at Okla-  
homa City was addressed by Senator  
Joseph Ransdell, of Louisiana, and  
Myron T. Herrick, former Ambassa-  
dor to France.

Why should not the Dixie High-  
way go from Chicago to Florida by  
the same route the Dixie Flyers go  
by rail? That would of course take  
it through the three cities—Evans-  
ville, Hopkinsville and Nashville.

Complete estimates from all in-  
ternal revenue collection districts re-  
ceived at the Treasury Department  
indicate that the individual and cor-  
poration income tax will probably  
exceed the original estimate of \$80,  
000,000.

**U. S. Navy Statistics.**  
Secretary Daniels, in a letter to  
President Garfield, of Williams Uni-  
versity, outlines the improvements in  
the navy, stating that there are now  
225 vessels in commission and 101 in  
reserve, and that there are 4,355  
line, staff and warrant officers and  
53,171 enlisted men. It is shown that  
reductions in expenses have been  
made and at the same time large ap-  
propriations for new warships have  
been secured.

## STANLEY'S CAMPAIGN

Will Be Opened At Frankfort  
On Next Saturday  
May 1.

### OUTLINE OF HIS SPEECH.

Intimation That There Will Be  
No Lack of "Hot Stuff"  
on Tap.

Louisville, Ky., April 28.—Former  
Congressman A. O. Stanley this  
week opened headquarters in the  
Galt house at Louisville, with for-  
mer State Auditor S. W. Hager, of  
Owensboro, in charge, and he has  
announced that he will make his  
opening speech at Frankfort next  
Saturday, May 1. He says he is  
going to say some things that will  
have an effect on this campaign  
similar in effect to the dumping of a  
bottle of tabasco into a bowl of soup.  
He this week made the declaration  
that he is not running for the  
Democratic nomination for gover-  
nor in the interest of any group of  
distilleries, brewers or saloons or  
saloon organizations; that the liquor  
question has been settled under the  
county unit local option law to the  
extent that it is not paramount as  
an issue in this campaign, as con-  
tended by the state-widens; that  
there are more vital questions for  
the attention of the people which  
may be kept in obscurity if the  
plans of the state-widens are suc-  
cessful, and that he intends to un-  
fold the story of the frame-up as he  
proceeds on the stump. Stanley  
has made engagements for Monday,  
May 3, at Newcastle, Henry county;  
Tuesday, May 4, at Owingsville,  
Bath county, and Monday, May 17,  
at Pikeville, Pike county. Judge  
S. W. Hager says that "Judge  
O'Rear's visit to Western Kentucky  
as the team-mate of Senator Beck-  
ham in the behalf of state-wide  
prohibition has made Stanley 10,000  
votes, at least."

Another angle that is being pre-  
sented as a possible determination  
on the part of Senator Beckham and  
Judge O'Rear is that the latter may  
become the opponent of Senator  
Ollie M. James, who is leaving San  
Francisco next Thursday for a trip  
to Hawaii with the congressional  
delegation. "If Senator James had  
joined forces with Senator Beckham  
in the support of a candidate for  
governor," said one of the expound-  
ers of this angle, "I am constrained  
to believe that he would not have  
undertaken the move he is now  
making. But James did not elect  
to play the game with him, and the  
feeling that he may not be able to  
find a man in his own organization  
working under the Democratic label  
to take James' measure, Senator  
Beckham is, as I see it, trying to  
create a 'dry party,' made up of  
Democrats and Republicans to sup-  
port Democrats when and where  
Democrats are strongest, and Re-  
publicans are strongest."

### COOLER WEATHER NEAR

Hot Spell to Be Broken by Sun-  
day, Weekly Forecast.

Washington, April 28.—Generally  
fair weather throughout the coun-  
try, except for some thunderstorms  
and scattered showers, was pre-  
dicted today by the Weather Bureau  
for the week beginning Wednesday. The  
hot spell over the eastern half of the  
country will be broken by Saturday  
or Sunday and cooler weather will  
prevail.

### Feeling Good.

Oglesby Soyars has found his gold  
watch lost a few days ago. It was a  
valuable watch, and an heirloom,  
highly prized. It was found where  
he had dropped it in a field. He ad-  
vertised it in the Kentuckian and  
then took a successful hunt and  
found it.

## MATINEE RACES NEXT

Will Be Resumed At The Fair  
Grounds, Beginning  
Saturday.

### BIG PROGRAM OF EVENTS.

A Small Admission Will Be  
Charged To Help Pay  
Expenses.

The matinee races will be resumed  
at the Pennyroyal Fair Grounds next  
Saturday. These races were a big  
success all last summer and the own-  
ers of horses are ready to enter into  
them again this season with great en-  
thusiasm.

The racing Saturday will begin at  
2 o'clock p. m. and there will be an  
interesting program, which has not  
yet been completed.

The Third Regiment Band will be  
on hand to make music.

The nominal charge of 10 cents  
will be made to help pay expenses.

## COUNCIL TO-NIGHT

Will Arrange For School Elec-  
tion and to Issue  
Licenses.

The council will meet in called  
session to-night for the purpose of  
closing up the affairs of the fiscal  
year ending April 20.

Applications for saloon and bil-  
liard licenses for the next fiscal year  
will be acted upon. The question  
of buying a lot for a colored school  
building will be considered, school  
matters generally will be gone into  
and officers will be named to hold  
the school election Saturday.

The terms of three trustees ex-  
pire—L. E. Fowler, Ira L. Smith  
and Jas. B. Braden. Mr. Braden  
has been on the board 27 years and  
he will not be a candidate for re-  
election. Chairman Ira L. Smith  
also announces that he will not stand  
for re-election. L. E. Fowler, J. H.  
Cate and T. W. Morris are candi-  
dates.

### Oil and Water.

Some of the neighboring cities are  
getting street oil at less than 4 cents  
a gallon and applying it at cost. It  
takes half a gallon of oil to sprinkle  
a square yard of macadam street  
surface. The average street in Hop-  
kinsville has about 27 feet of sur-  
face, or 3 yards to the lineal foot.  
At even 6 cents a gallon put on, the  
cost of oil should be about 9 cents a  
front foot, or 43 cents on each side.  
If oil can be had at this reasonable  
price, the Kentuckian prefers oil to  
water for many reasons. This is  
cheaper than the price of water  
sprinkling at 25 cents a week for  
each property owner, but many citi-  
zens are so prejudiced against a  
sticky asphalt and oil mixture that  
they bitterly oppose its application  
at any price. Real street oil would  
be less objectionable.

### Can Go Barefooted.

Indianapolis, Apr. 28.—The board  
of school commissioners at a meet-  
ing championed the cause of the  
barefooted boy, when letters were  
read in which the request was made  
that the board establish a rule com-  
pelling all children to wear shoes  
and stockings to school. Every  
member of the board denounced the  
suggestion. One of the commis-  
sioners said that to enforce such a  
rule would be "to place the boy in  
torment," and would deprive the  
schoolboy of "one of the inherent  
rights of childhood."

### Suicide at Ashland.

Ashland, Ky., April 28.—James H.  
Hawes, 26 years old, an employe of  
the spoke factory at Normal, near  
Ashland, swallowed a quantity of  
poison and died within less than a  
half hour.

## CLEAN UP A SUCCESS

Lasted For a Week And  
Nearly 800 Loads  
Hauled.

### THE CITY SPICK AND SPAN.

Took Whole Week of Work In-  
stead of Two Days As  
Planned.

Sanitary Inspector Crawley fin-  
ished cleaning up the city yesterday,  
having had 17 wagons busy since  
last week. These wagons made only  
6 loads a day, owing to the long  
haul necessary to get the trash out  
of the city. During the entire  
period 700 or 800 loads were hauled  
off and dumped in a low place to the  
east of the Cedar Grove.

### Out On Crutches.

Mr. M. O. Kimerling, whose leg  
was broken about three weeks ago,  
is able to be out on crutches.

## PROF. FOSTER WITHDREW

And Supported His Friend Prof.  
Vinson for Presi-  
dent.

The Christian County delegation  
which returned Saturday night from  
Louisville report a very pleasant  
trip and say that the K. E. A. was  
the largest and best educational  
meeting ever held in the Common-  
wealth of Kentucky. About 90 per-  
sons went from Christian county to  
the K. E. A. This is one of the best  
and largest delegations that has ever  
gone from this county.

Last Thursday the Courier-Journal  
stated that Supt. L. E. Foster would  
likely be a candidate for the presi-  
dency of the K. E. A. who at the  
time was strongly urged to allow his  
name to go before the Convention.  
He had a great following among the  
County Superintendents, Trustees,  
and Rural Teachers as they felt that  
a County Superintendent should be  
elected this time. However, when  
Mr. T. W. Vinson, who has been sec-  
retary of the K. E. A. for ten years  
and who has done more than any other  
one person to make it what it is  
come out, Mr. Foster declined to op-  
pose him. Mr. Foster and Mr. Vinson  
are personal friends and the friends  
of one are the friends of the other,  
so in recognition of Mr. Vinson's  
long and faithful services Mr. Foster  
would not permit his name to come  
before the convention, but on the  
other hand nominated Mr. Vinson,  
thereby indicating that he desired  
his supporters to support Mr. Vin-  
son. Not only Mr. Foster's friends  
but many in the Convention who did  
not know him stated that they thought  
that he did the graceful thing at this  
time, and assured him that he would  
be president of the K. E. A. at some  
future date and that they would take  
particular interest in helping to elect  
him. Supt. Foster stated that there  
was likely to become a fight between  
the county teachers and the city  
teachers and his withdrawal elimi-  
nated any such fight, which, of course,  
is detrimental to educational meet-  
ings of this kind. He stated also,  
that he was afraid all the time of a  
political fight, as this is campaign  
year and the candidates were thick  
at this meeting.

### Eloped With Janitor.

Isabel Bernheimer, nineteen-year-  
old daughter of Charles Daily Bern-  
heimer, millionaire tenant in a de-  
luxe apartment house in Central  
Park West, New York, eloped with  
James Murray, doorman of the house.

### Strictly Up-to-Date.

The new battleship California, now  
being constructed at the New York  
Navy Yard, will be equipped with  
electric driving machinery and will  
be the first battleship with this  
equipment built by any nation.

## NASHVILLE BOOSTERS

Coming on Friday Night May  
14th For a Brief Stop-  
Over.

### PARTY OF ONE HUNDRED.

Headed By President Alf. H.  
Williams, of The  
Club.

Secretary Richards, of the H. B.  
M. A. has been notified by President  
Alf H. Williams, of the Nashville  
Booster Club, that the Boosters on  
their eleventh annual tour will visit  
Hopkinsville on the night of May 14,  
arriving at 5:40 p. m. and departing  
at 7 a. m. the next day. The party  
will be composed of 100 commercial  
and professional men and their pur-  
pose is to be friends and make  
friends. They do not come in an en-  
deavor to take from the city but to  
be friendly and helpful.

## SERVED ON BOTH SIDES

"Uncle Jim" Spencer, of Lee  
County, Fought Under  
Two Flags.

Lexington, Ky., April 28.—"Uncle  
Jim" Spencer, Sr., who is dead at  
his home at Filmore, Lee county, in  
his seventy-ninth year enjoyed the  
distinction of being one of the only  
two men in Kentucky who served in  
both the Union and Confederate  
armies during the Civil War and who  
had an honorable discharge from both.

He was the only man in Lee coun-  
ty, so far as is known, who respon-  
ded to the first call of President Lin-  
coln for ninety day volunteers and  
his command was one of the first  
that took the field in '61. When his  
three months expired he declined to  
re-enlist, received an honorable dis-  
charge, and returned home, but al-  
most immediately afterward joined  
the fortunes of the Confederacy,  
fighting under the bonny blue flag  
until the close of the war, when he  
received a second honorable dis-  
charge.

It was the slavery issue and the  
pressure brought by his home people  
that caused him to change his allegi-  
ance, it is said. He was one of the  
leading members of the Baptist  
church at Filmore and besides seven  
children, he leaves a number of  
grandchildren and a host of friends  
to mourn his loss.

### All Eyes on Christian.

Christian county farmers figure  
their savings alone since the work of  
farm demonstration was established  
at one hundred thousand dollars an-  
nually. I believe that as much could  
be saved to the agricultural interests  
of Fayette through the same agency  
and co-operation every year.

This striking utterance is from  
Dr. Fred Mutchler, head of the Ex-  
tension Department of the Kentucky  
Experiment Station.

### Seriously Ill.

Capt. L. D. Hockersmith, one of  
the oldest citizens of the town, has  
been seriously ill for the past several  
days and his condition was unchang-  
ed at press time yesterday after-  
noon. A few days ago he was injur-  
ed in a fall which resulted in com-  
plications that may result in his  
death. Capt. Hockersmith is loved  
by every one in Madisonville and Hop-  
kins county and his many friends  
will be grieved to learn of his illness.

### Oil For Owensboro.

Owensboro, Ky., April 28.—The  
city of Owensboro will purchase one  
hundred thousand gallons of oil for  
the streets this week. The bids for  
the oil have been received and the  
contract will be signed this week.

## BY LAND AND SEA

French Troops Occupy Turkish  
Town on The Asiatic Side  
of Straits.

### THE GERMANS HOLD GROUND.

Berlin Claims That British At-  
tempt to Retake Lost  
Position Fails.

London, April 28.—On the narrow,  
rocky Gallipoli peninsula in Turkey  
and on a restricted front stretching  
northward from Ypres in Belgium,  
two of the most vital struggles of the  
war are in progress. Neither has  
reached a stage which would permit  
of a prediction of the ultimate result.

In the Gallipoli peninsula fighting,  
a picturesque assortment of allied  
troops landed Sunday, supported by  
the fire of the warships are trying to  
batter their way through thousands  
of German-officered Turks in an ef-  
fort to force the Dardanelles—the  
main gateway of the Ottoman em-  
pire—and reach Constantinople.

According to the British claim, the  
attack is progressing, but a Turkish  
communication declares that, al-  
though the allies landed forces at  
four points, these forces are being  
teaten back to the coast, while the  
Moslems in the French ranks are de-  
serting the tricolor and casting their  
lot with their coreligionists.

Equally contradictory are the of-  
ficial statements concerning the fight-  
ing in the vicinity of Ypres. It would  
appear that the German offensive  
north of that city, which brought  
them a gain of nearly three miles, has  
reached its limit, and that, although  
the Germans hold most of the ground  
they gained, the question now is  
whether they can retain it.

The British troops are now said to  
have taken the offensive and are  
striking toward St. Julien, which  
the Germans captured, while the  
French on the British left not only  
have pushed the Germans from Li-  
zerne, their new lodgment on the  
west bank the canal nearest Calais,  
but have crossed the canal and hold  
Het Sas, on the east bank.

The German official communication  
which records no progress from the  
German troops, admits that the  
British took the offensive toward St.  
Julien, but insists that the successive  
attacks broke down.

Some sections of the British press  
profess the belief that the crisis in  
the new battle, or series of battles,  
for the French coast has passed, but  
others are of the opinion that the  
end is not in sight.

"The fate of Calais still hangs in  
the balance," says the Evening News.  
"The Germans are not disheartened.  
They are not starving, and they are  
capable of a great sustained offen-  
sive in Flanders."

French troops have occupied Kum  
Kaleh, a Turkish town on the Asiatic  
side of the entrance to the Darda-  
nelles.

### CLOSE CLIP

For One of The Tucker Twins,  
Under an Auto.

Elon Tucker, aged five years, one  
of Mr. and Mrs. J. T. Tucker's twins,  
was run over by an automobile driv-  
en by M. O. Kimerling, Tuesday af-  
ternoon, in front of the Princess  
theatre, and had a miraculous es-  
cape. The little fellow fell under  
the car, but it passed over him with-  
out the wheels hitting him. He was  
dragged a little distance, but, except  
for a scratch on one knee, escaped  
injury and was up and about as usual  
yesterday. Mr. Tucker, who is  
the well known insurance man, was  
out of town at the time.

In Bowling Green 2,800 persons  
attended the white Sunday Schools  
and 1,141 the colored ones, Sunday.

Villa now claims to have Obregon  
surrounded and is preparing to  
crush him at a point near Torreón.

Judge E. C. O'Rear is being urged  
to run for Governor again on a State  
wide Prohibition platform.

The total Sunday School attend-  
ance at 24 white churches in Paducah  
Sunday was 3,731. The first  
Baptist lead with 565.

Henderson's Sunday school attend-  
ance was 2,920, the Baptists  
leading with 1,119 and the Metho-  
dists second with 727.

Between 60,000 and 70,000 people  
attended Sunday School in Jefferson  
county Sunday. The largest atten-  
dant, 1,008, was at Crescent Hill  
Methodist church.

Senator Beckham and Judge  
O'Rear will resume their lecture  
tour Saturday at Richmond and also  
have dates for Flemingsburg and  
Owingsville next week.

T. L. Bass, mayor of Sanford, N.  
C., killed himself with a rifle, here  
after leaving a note stating that his  
act had been caused by ill health. He  
had served four terms as mayor.  
Earlier in the day he had been on the  
street campaigning for renomination.

A Nashville woman who was mar-  
ried three and one half years ago has  
sued her husband for divorce, alleg-  
ing that he has deserted her seven  
times. If he has been away  
without permission only once in every  
six months, the lady should compare  
him with other husbands and not  
judge him harshly.

Only a little while ago the town of  
Almo, in Calloway county was al-  
most destroyed by fire, Monday a still  
more destructive blaze visited the  
town of Hazel, in the same county,  
the losses aggregating \$100,000. Prac-  
tically the whole business section was  
wiped out. W. Ed White was prob-  
ably fatally burned.

Hon. E. J. McDermott, one of the  
six candidates for the Democratic  
nomination for Governor, will speak  
here next Monday. It is conceded  
that Mr. McDermott, who is the  
present lieutenant governor and has  
frequently been acting governor,  
will be one of the strong men in the  
race.

The German commerce destroyer  
Kron Prinz Wilhelm will be interned  
for the war in American waters at  
the request of her commander,  
Lieutenant-Captain Thierfelder.  
He gave as a reason that there was  
no prospect for the early recovery  
of the sailors who are suffering with  
beri-beri, and added that his ship  
could not be properly manned with  
so many of her crew incapacitated.  
He had been given until April 30 to  
leave Newport News or intern.

### Kites in Life-Saving Work.

The employment of kites for ex-  
tending life lines to vessels in distress  
at sea has been suggested as having  
a marked advantage in certain in-  
stances over the methods ordinarily  
followed, says Popular Mechanics.  
Instead of throwing a line to a sink-  
ing ship by using a rocket, which  
sometimes miscarries, it is proposed  
that this be accomplished by attach-  
ing a trailing cable to a series of box  
kites which from a windward position  
might easily be directed over the mil-  
dieu of a ship. After reaching the  
line, it would only be necessary for  
these aboard a sinking steamer to  
draw in a hawser with this lighter  
rope and attach it in a position which  
would allow the operation of a  
breeches buoy.

## CLOCKS WENT ON STRIKE

But it Was in Philadelphia, So There  
Was Not Much Worry Over  
Tardy Timepieces.

Several thousand Philadelphians,  
peering from trolley car windows at  
familiar clocks on familiar build-  
ings, wondered what "in all conse-  
quence" was the matter with the  
home alarm clock; or, if there was  
nothing the matter with the alarm  
clock, what "in all consequence" the  
"old man" at the office would say  
when they dropped in three-quarters  
of an hour early for that eight  
o'clock appointment.

As a matter of fact, there was  
nothing the matter with the alarm  
clock, and the thousands slid into  
their typewriter chairs or climbed  
on to their bookkeeping stools just  
inside the usual 2:37 seconds.

The real trouble was that fully  
a thousand Philadelphia street and  
factory clocks had stopped near 7:15  
a. m. They were the timepieces  
which are regulated by Western  
Union telegraph wires from the  
United States observatory in Wash-  
ington, and water had somehow  
leaked in and let the current out of  
the wires. New circuits were ar-  
ranged, which set all the clocks going  
again by one o'clock in the after-  
noon.—Philadelphia Public Ledger.

## BONEY AND WINE

### OF THE HOLY LAND

It has been rightly said that the  
great charm of the Holy Land is its  
antiquity. To this might be added  
its infinite variety, for every town  
and hamlet has a charm of its own—  
something that singles it out for  
special notice and attention and  
makes it different from its neigh-  
bors. For instance, Jaffa, the gate-  
way of the Holy Land, is famed the  
world over for its delicious oranges,  
and, incidentally, for its honey and  
wine. Joshua described the country  
as a land flowing with milk and hon-  
ey. Substitute wine for milk, and  
the ancient pronouncement is still  
applicable.

It is Palestine's unique geograph-  
ical position that enables her to pro-  
duce such fine honey. Here the flora of  
three different continents meet, and  
this fact, coupled with other circum-  
stances, has made the conditions in  
Palestine ideal for honey culture.  
Some time ago two brothers in Jaffa  
had an apian on novel lines. They  
conceived the ingenious idea of fur-  
nishing the bees with material for  
honey-making purposes throughout  
eight months of the year. Camping  
first at a low altitude, they waited  
until the flowers of that locality were  
over, and then conveyed the hives on  
came back to a higher place, thus  
following up the consecutive blossom-  
ing of different flowers. They  
were even able to separate the pro-  
duce of these overworked bees into  
"orange-blossom honey," "thyme  
honey," and so on, with each suc-  
ceeding finer. By using modern  
extraction machinery and replacing  
the combs, one hundred hives were  
made to yield no less than six tons of  
honey in the year. This is nearly  
three times as much honey per hive  
as the maximum yield on the great  
honey farms of Australia and Amer-  
ica.—From Wide World Magazine.

### Czar's Immense Wealth.

The czar of Russia is a well-paid  
ruler. He receives the revenues from  
the Russian crown lands, and their  
area is equal to that of one-third of  
the United States. Several years ago the  
imperial treasurer is reported to have  
advised the czar: "Your majesty need  
have no fear of ever coming to feel  
the sting of poverty. Financially you  
are solvent. With one hand you  
could buy out the American multi-  
millionaires, Morgan and Rockefeller,  
and still have enough left to talk busi-  
ness with Baron Rothschild!" It is  
said that the czar was displeased at  
the flattery of the holder of his purse  
strings. Whether the story is apoc-  
ryphal or not, it does not misrep-  
resent the czar's wealth.

## Carefully Treat Children's Colds

Neglect of children's colds often lays the  
foundation of serious lung trouble. On  
the other hand, it is harmful to contin-  
ually dose delicate little stomachs with  
internal medicines or to keep the children  
always indoors.  
Plenty of fresh air in the bedroom and a  
good application of Vick's VapoRub  
Salve over the throat and chest at the first  
sign of trouble, will keep the little chap  
free from colds without injuring his di-  
gestions. 25c, 50c, or \$1.00.

"For several years, I suffered, off  
and on, from female troubles, until  
finally I was taken down and could  
do nothing. The pains I experienced,  
I shall never forget. I lost weight  
till I was only skin and bones. I be-

## PAY WAY THROUGH COLLEGE

Large Percentage of Young Women  
at Oberlin Are Practically De-  
pendent on Own Resources.

The special committee in charge of  
loans to students in Oberlin college  
reports that a very significant per-  
centage of the young women enrolled  
in various departments of the insti-  
tution depend either entirely or in  
part upon their own resources for  
their college education. There are  
about four hundred young women  
registered in the college of arts and  
sciences who returned answers. Of  
the 80 women classed as wholly or  
partly self-supporting, seven are  
working for all of their room and  
board; 14 for part. The price for  
room, board, heat and light paid by  
those who are working for part, aver-  
ages approximately \$2. The cost to  
those who paid all in money is prac-  
tically double this amount. It is sig-  
nificant that only one student reports  
that she is boarding herself, and one  
that she is preparing the lighter  
meals. Thirty-seven have borrowed  
money; 36 are earning money while  
studying; 67 are using or have used  
money earned and saved. The in-  
dustries reported are: School-teach-  
ing, 40; housework, 18; office work,  
11; with a scattering distributed  
among canvassing, nursing, teaching  
music, artist, market gardening,  
library assistant, post office assist-  
ant, playground work, seamstress  
and curio saleswoman.

## Health Promotes Happiness.

Without health, genuine joy is im-  
possible; without good digestion and  
regular bowel movement you cannot  
have health. Why neglect keeping  
bowels open and risk being sick and  
ailing? You don't have to. Take  
one small Dr. King's New Life Pill  
at night, in the morning you will  
have a full, free bowel movement  
and feel much better. Helps your  
appetite and digestion. Try one to-  
night.—Advertisement.

## The "Jitney" Mystery.

The elusive "jitney bus" idea  
seems to have been traced to its lair  
at last. Every since this convenient  
transportation device has swept  
across the country, curious-minded  
folk have been trying to discover  
the meaning and origin of the  
phrase. It has dawned on the slowly  
comprehending East that "jitney" is  
a slang word for "nickel," supposed  
to have been in vogue somewhere or  
other before it won universal recog-  
nition by being coupled with the  
ultra-modern auto-bus. But where  
the term came from has remained a  
mystery.

Now comes a retired cavalry offi-  
cer with the magnificent name of  
George Washington Lee, and in a  
letter to the New York Sun calls at-  
tention to this little jingle, which  
has long been common, he says,  
among the French-speaking negroes  
of Louisiana:

Mettons j'ne dar z li trou  
Et parcourons sur la rue,  
Mettons j'ne e-si non vous  
Prmenz au pied nu!

For the benefit of those who can't  
figure out the dialect in French, it  
might be translated as follows:

Put a nickel in the slot  
For a ride along the street,  
Put a nickel in—if not,  
March along in your bare feet.  
"Jetree," pronounced "jet-nay,"  
is then the word "jitney," and the  
only new thing there is about the  
jitney bus is the use of electricity  
instead of mule power. It is as dis-  
tinctly southern as sweet potatoes,  
molasses and mint juleps.—Owen-  
boro Messenger.

## Kentucky Not So Bad.

During the foot and mouth disease  
outbreak there have been snarled  
1,127 animals in the effort to  
stamp out infection. This is not  
near so bad as many other Central  
West States, as Kentucky stands  
twelfth in the list. That means eleven  
other States are worse off than  
Kentucky. While we have heard  
many harsh criticisms of the Federal  
officers and Commission Newman,  
Kentucky Farming, trying to see  
both sides of the question and ac-  
knowledging that some heavy acts  
probably took place, yet on the  
whole Mr. Newman has handled the  
affair with remarkable judgement. It  
required the prompt action shown  
by him and the farmers of the South  
small paid time.—Kentucky

## Duruy's History of the World

Four splendid cloth volumes, full of  
portraits, sketches, maps, diagrams  
Today is the climax of a hundred years of preparation.  
Read in this timely, authoritative, complete, AND THE  
ONLY CONDENSED classic world history—of which over  
2,000,000 copies have been sold in France alone—just what has  
taken place in the inner councils of Europe during the past one  
hundred years. Read in these entrancing pages how Russia  
has for years craftily been trying to escape from her darkness—  
to get a year-round open port, with its economic freedom.  
Read how Germany and Austria, fearful of the monster's  
latent strength, have been trying to checkmate her and how  
they have pinned all in this last, supreme stake.

### The Lesson of the Past

THIS master of the pen shows you the story that was Greece's  
and the grandeur that was Rome's. He guides you through the  
Middle Ages, the picturesque old days of feudalism and the crusades;  
through the Renaissance up to contemporary history, which Froel  
Governor completes in brilliant manner. In the story of the past  
lie the secrets of today. And you will understand them better when  
you get the Review of Reviews for a year—the Review of Re-  
views will give you a sane interpretation of the events that are taking  
place with such rapidity. It is not enough to read the daily news  
reports. Your ability to comprehend conditions, and to discuss them  
rationally depends on a true interpretation of the meaning and the  
"reason why" of events. In your mind you must bring order  
out of chaos—and the Review of Reviews will do it for you.

## ADELE HUGO

Sad and Tragic Life of Author's Daughter Comes To End.

Paris, April 23.—Adele Hugo, youngest daughter of Victor Hugo, died Wednesday at her residence in Suresnes, a suburb of this city, at the age of 85 years.

The sad and tragic life story of Adele Hugo many years ago aroused the sympathy of the entire world. As a girl she was kidnapped at Guernsey by an English officer. All Europe was searched for her parents but they obtained no trace of her whereabouts.

Several months later a girl found wandering alone in the streets of New York, apparently demented, declared "I am the daughter of Victor Hugo." This was the only statement she ever made.

She was sent back to France to her parents but her lips remained sealed until the end and the tragic story of her life never was revealed. She failed to entirely recover her reason and after the death of her father lived a solitary existence in her villa, morose and speaking. When she did consent it never was of the past.

## The May Strand Magazine.

The Strand Magazine for May contains among its usual high order of fiction, a story from the Russian on "The Rules of War," and an unusually powerful tale of the great war, "In the Casualty List." Still other war stories include "Why the Gunner Went Ashore," and Richard Marsh's fourth installment of Sam Briggs Becomes a Soldier, showing this philosophic and humorous recruit under the baptism of fire. A love story that should find favor is Ben Allen Smith's, "Alice Palmer's Choice." John Foster contributes a short story entitled, "Settled Out of Court," and there is an interesting Norwegian story for children translated into English by E. Dyke, entitled, "How the Sea Became Salt." Heading the list of articles is one, "All About General Joffre," giving a portrait study of the man and a day at the front with the great French commander.

Driven from Homes.

Germany has notified Switzerland that between 250,000 and 300,000 French peasants will be sent out of provinces held by Germany during May, because of lack of food. They will pass through Switzerland as they are driven from their homes. Most of them are old men, women and children.

MUST HAVE SACKS.

No country would go to war without sacks, and the war could not continue for long if the supply of sacks gave out. They are as vital a necessity as powder and shot. Since the war started the government has forbidden sackmakers to trade with neutral countries through which sacks might be sent to the enemy. Sacks are thus contraband of war.

"Do you believe in heredity?"

"I certainly do. Take those Wright brothers, aviators; their father was a sky pilot, wasn't he?"—Boston Evening Transcript.

PROVIDING.

"Do you believe in love in a cottage?"

"Oh, yes, if the cottage is a ten-thousand-dollar one in a fashionable suburb."

CORRECT COUNT.

"Why did the ladies of old give their suitors their gloves?"

"Because then they could tell what knights they had on hand."

AN OBJECTION.

"Why not?"

"Because he is too fresh."

HER STYLE.

"Are you going out of the city this summer, Mrs. Comeup?"

"Oh, yes. We've engaged a barcarole in the hubbubs."

THE REASON.

"When money talks, it always gets attention."

"But then money always talks cents."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

"The Leech"

Ohio County Outrage.

Hartford, Ky., April 28.—Twenty night riders Monday night visited Rockport and shot and wounded one negro who resisted an attempt to flog.

They flogged four others and only desisted when they apparently believed the shots from their own guns would arouse the authorities.

Many negroes are leaving, and the rest are preparing to flee.

OVERREACHED HIMSELF.

"Why did you refuse your Mr. Gidders, my dear? I dare say he pleaded his suit eloquently enough."

"That's just it. His plea was so eloquent that it sounded to me like borrowed stuff."

TRUSTING DISPOSITION.

"He showed wonderful confidence in me when the clouds were darkest."

"In what way?"

"Lent me his umbrella."

THE ACME OF GRACE.

"What a graceful thing she is!"

"Yes. But say, did you ever see anyone more graceful than mother turning pancakes?"

ACHIEVED HIS AIM.

Trouble With "Buck."

One day when the administration of James Buchanan was young there was a stormy meeting of the cabinet that lasted for an hour or more. The legend goes that when the meeting adjourned, Mr. Cobb, secretary of the treasury, was asked what the row was about. "Oh, nothing," he replied, "only old Buck was trying to be against the administration." Doubtless nothing of the kind ever occurred, but it made a rather good story for the newspapers and gave the country a good laugh.—Savoyard.

For Eastern Laughs.

"Mr. Dewey called again this morning," said the new office boy as Mr. Wilson entered the office. "Did you tell him I had gone to California, as I told you, Frank?" "Yes, sir," "What did he say?" "He asked when you would be back, and I said, 'After lunch.'"—Indianapolis News.

# SEE WHAT The Union Central WILL DO FOR YOU

As Compared WITH OTHER COMPANIES

No sensible man would under take to buy property without first investigating the security and the cost. This precaution should be exercised especially in buying Life Insurance, as this estate will be settled with widows and orphans, probably thirty or forty years hence. The very best security is not too good to surround the estate of your loved ones. Below we are making some comparisons in rates for three of the popular forms of Life Insurance with some of the leading companies of the country. All of which we regard as safe so far as security is concerned but look at the wide difference in premium rates. The Ohio, Massachusetts and New York, and other Insurance Departments show beyond controversy that Policy holders in the Union Central pay less for their insurance than policy holders in other companies. As to the security that the Union Central offers, we will respectfully call your attention to our 1915 Report. (See recently published financial statement of Company.) The company issues all modern forms of Life Insurance. Before purchasing your insurance, you should certainly let us show you what we have, and if we cannot show you where we can save you money, we will advise you to buy your insurance elsewhere.

### AGED PREACHER

Rev. Geo. W. Latham Died at  
Mayfield April 22, aged 91  
Years.

Rev. Geo. W. Latham, a venerable Methodist preacher of Graves county, well known in this county, died a week ago near Mayfield. He was 91 years of age. He had been married five times and leaves five children, one of them Mrs. Susan M. Gray, of this city. In his younger days he was a blacksmith and worked at his trade during the week and preached on Sundays. He had committed many chapters of the Bible to memory. He was buried at Backsburg, Calloway county.

### SOME DON'T

Mabel—George and I are going to get married and then we're going to camp out for a month and "rough it."

Harriet—Married people don't have to go into camp to "rough it."

### GOOD COTTON PRODUCTION.

Two "generations" of cotton produced on the same soil, one bale having been grown from the seed of the first one ginned in the year, is the record of the Ivey ranch, near Calico. This ranch produced the earliest bale to be ginned in the United States, on June 17, 1914. Taking the seed from the record bale, they planted it on the same acre and on October 15, 1914, had the second bale ginned.

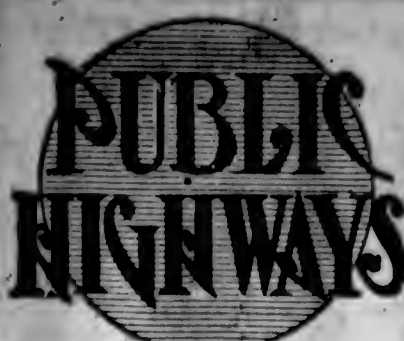

### AN UNDERSTUDY.

"So you have employed a chauffeur?"

"Yes," replied Mr. Chingins.

"I thought you said that in order to enjoy a car a man ought to run it himself."

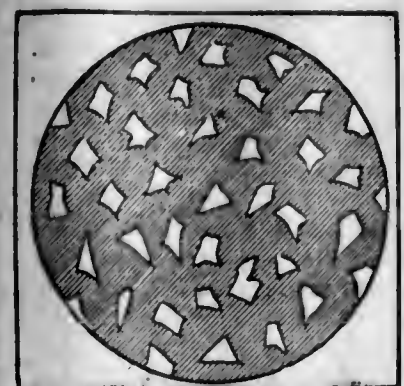

"That's true. I don't feel much like letting the chauffeur run the car. I keep him on hand to take the blame when it doesn't run to suit my family."

### PROCESS IN ROAD BUILDING

Various Steps in Construction of Highways Described—Concrete, Gravel and Brick Mentioned.

Highway improvement, like the growth of population, should be progressive, argues a student of the subject. Each should be suited to the requirements of its period, says Cleveland Leader. This contemplates, first

Sand-Clay Mixture With an Insufficient Amount of Sand, the Grains Not Being in Contact.

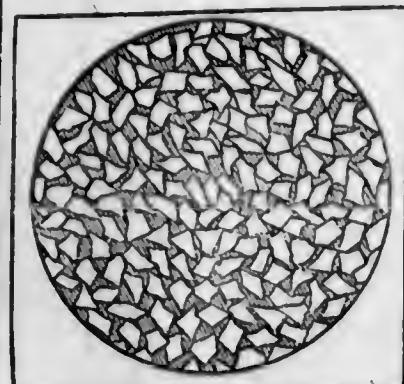

the proper locating, grading and drainage of the sub-base, which are essential to any good road.

This sub-base can be used as an earth road during the years when traffic is light and can be kept in serviceable condition by dragging after spring and fall rains at a cost of \$30 a year a mile.

The second step is to make a gravel road, when travel increases or funds become available, by applying several inches of sharp, clean gravel after dragging and rolling the earth road. This can be done in most places for a few hundred dollars a mile, and maintenance will cost about one hundred dollars a mile.

When the gravel road is outgrown, it forms an excellent foundation for a concrete surface. It is only necessary to loosen the gravel and roll it to uniform compactness, then lay a course of hydraulic concrete to carry heavy traffic. The surface construction costs approximately \$1.50 a square yard. Maintenance should not average more than \$50 a mile.

The final step in progressive road building, when heavy teaming and trucking predominate, is to lay a course of vitrified brick or granite sets grouted with cement on a sand cushion on top of the concrete. Or, if part of the road should become a residence street or be set apart as

Clay Mixed With Sand to the Point of Saturation, With the Angular Sand Grains in Contact.

a boulevard, a quiet pavement of wood blocks, sheet asphalt or asphalt blocks can be laid on the concrete.

This is the most practical and economical plan, providing for varying volumes and kinds of traffic over a century or more of use and involving loss of investment in pavements that are excessively costly to maintain and which are not essential as a foundation in the final type of highway.

### Gravel Improves Roads.

Where gravel is abundant roads may be greatly improved by spreading a layer of the same on a central space in the road. This space should be not less than say twelve feet wide. If the gravel is suitable, two to three inches of it will tend to firm the roadbed. Of course the ideal way where the materials are suitable and the expense can be borne is to remove the earth from this central portion and nearly fill the depression with small stones. Then cover with two or three inches of earth and over this spread the gravel. A good road is thus made and one that lasts, but this can only be done where such material is plentiful.

### Keep Water From Road.

Where a road runs along a hill, the water must be kept from running upon the road. The side ditch must be ample and, if necessary, a string of tile put three feet or more below the bottom of the ditch on the up-hill side, which will prevent seepage from below.

### Instruction for Road Boss.

Every road boss should attend road making school and read all he can about highway construction and maintenance.

## There Can Be But One

There can be but one Best in any line, and when in any product you find one name or brand that has been proven to be the best, you may know it by the standing of the manufacturer who makes it, the reputation of the dealer who sells it, and the intelligence of the people who use it. The Fertilizer that meets these requirements is

### Capt. Crouch the Other Man.

The only other man, as far as is known, who served in both armies during the Civil War is Capt. James Crouch, a veteran railroad conductor, of Louisville, who was in the Union Cavalry in the Virginia campaign. He went to Secretary of War Stanton and told him that he was a Kentuckian and disliked fighting against his own people. Stanton granted him an honorable discharge. Coming home, he entered Gen. John H. Morgan's cavalry, serving throughout the war. As he expressed it, "I am the only man living to be licked on both sides."

### Big Man Dead.

Rodney K. Dugan, of Woodlawn, Ky., died Tuesday morning at his residence, aged about sixty five years. He was the largest man in Nelson county, at one time weighing over 400 pounds.

### Woman Gets Two Years.

Miss Mary Palmer, 24 years old, was sentenced to two years in the penitentiary in St. Louis on pleading guilty to taking jewelry valued at more than \$5,000 from the home of Albert Bond Lambert on March 11. Miss Palmer had been in the employ of Mrs. Lambert only a few days. She was arrested in Louisville two days after the robbery. The police say she was convicted of a similar charge in Detroit and is wanted in Cincinnati, O., and Hartford, Pa.

### SAVE VESSEL FROM SINKING

Sailors Have Two Methods of Stopping Leaks Caused by the Shells of the Enemy.

After the conflict Jack Tars have several methods of stopping the incoming water when a battleship has been hit below the water line. For instance, if a small hole has been made in the vessel's side, an apparatus like an umbrella is used. This is thrust through the hole, point first, and then drawn back so that it will open like an umbrella—leaving the canvas outside.

Of course the pressure of the water effectually forces the canvas against the ship's side, thus stopping the leak; but to make it more secure the handle of the umbrella, which is formed like a screw, is fastened by a nut inside.

In the case of a bigger leak—when the ship has been stove in below the water line—a large mat made of canvas and oakum is used. This has to be fixed into position by means of ropes. But the fixing is not a very easy matter, as one rope has to be got right under the keel, to the other side of the ship, in order to drag the mat down to the hole. Two or three other ropes are also required at different angles to guide the mat to its right position.

#### American Walnut.

So beautiful and durable a wood as walnut never would have gone out of favor if it had been rightly handled. It was a victim of machine-made "decoration." It was done to death by the meaningless curlicues with which it was "adorned." If the artisans of today will eschew such mistakes, abjure their effort to make wood glitter like glass and treat walnut as they do oak or mahogany, there is no reason why this peculiarly American product should not keep a high and permanent place in cabinetmaking.

### ODD ANIMAL ON EXHIBITION

National Museum at Washington Has a Prize in Its Recently Acquired Gerenuk.

The National museum at Washington has put on exhibition a mounted gerenuk. This animal was seen in British East Africa by the Smithsonian African expedition of 1909-10, under the direction of Colonel Roosevelt, and is the first specimen of this odd gazelle to be exhibited in the collection of the museum.

In appearance the gerenuk is a peculiar mammal, resembling an antelope, and yet having such a long neck and such long, thin legs as to cause the layman to believe it must be related to the giraffe. However, it is a gazelle, scientifically termed the Lithocranius walleri, or Waller's gazelle. The body and head are like those of a gazelle, but the legs and neck are greatly elongated. Its natural habitat is in British East Africa. In the book, "Life Histories of African Game Animals," issued by Colonel Roosevelt and Edmund Heller, it is said that this animal is universally distributed in the region north of the Tana river and throughout Somaliland, where it is well known to every traveler.

### PICKLES AND GIN FOR BABY

Father Rebels at Diet and Success Fully Asks Court for Custody of His Son.

Alleging that his wife, Mrs. Edith Fies, had fed her six-months-old son, Frank, pickles, and when told that pickles were not good for a baby, had replied that if the boy got cramps she would give him gin to drink, Joseph Fies, the child's father, asked Justice Nathan Bijur in the supreme court for the custody of the boy. The pickles and gin incidents were sworn to in an affidavit made by Mrs. Lottie Ullman and submitted by Fies.

Mr. Fies also told the court that last February, when the boy had chicken pox and had been ordered segregated by the board of health, he came home to find that the mother had put the child in bed with another child.

Fies contended that these incidents showed that the mother is not a proper guardian for her son, who is now three years old. Justice Bijur, after reading the affidavits, awarded the father the custody of the boy.—New York World.

#### The "Halingo."

I had never seen such a creature before. It stood about five feet high, evidently belonged to the ape family, and resembled a man more than anything else. These animals are of a brownish color except their faces, which are white. They walk erect on their hind feet, and the males possess a long white beard, which gives them a very peculiar appearance. The female carries her young in her arms, the same as a woman. The interior of Central America is their habitat; I do not know of any other jungles in which they are found. They are seldom seen in the day, they are very ferocious when cornered, and have enough muscular strength to outmatch a dozen men. The natives call this remarkable monkey the "Halingo," and regard it as an evil spirit.—Wide World Magazine.

#### Virtue of Good Manners.

Good manners, while costing little, accomplish much. They may perhaps be among the "little things," but who will not agree that it is just these little things that makes the big differences in our pleasure or pain, comfort or discomfort? They oil the wheels of life and cause them to run smoothly and noiselessly. To those who can command its varied scale, from genial warmth to icy frigidity, politeness is perhaps the most powerful weapon of defense and offense.

#### To Soften Water.

A simple method to soften hard water is to boil it for a quarter of an hour, pour it into an earthen jug, add a quarter of an ounce of common soda to each two gallons, stir, and when cold carefully pour off the clear water from the sediment.

## How To Buy A Piano

After you have made a thorough investigation of the different methods of selling pianos just figure what you can save if you buy direct from the factory. Remember, a retailer has large expenses in selling a piano, besides his profit. You can save all of this at our factory.

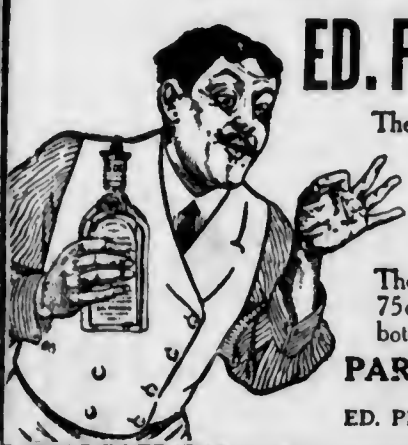

We make no fine pianos as are manufactured anywhere, and we sell direct to the homes. We never sell through dealers or agents, but we will give their profits to you.  
The Adler Piano received the highest award at the National Conservation Exposition at Knoxville in 1913. You can try an Adler Piano in your home free. You can put it to any test and make any comparison you desire. You do not obligate yourself to purchase, ship it back at my expense if you are not more than satisfied to keep it.  
My plan of selling direct from the factory saves you \$100 to \$150. If it is not convenient to pay cash, you can use my strictly confidential "Charge Account Plan" whereby you can pay in small amounts to suit you, and without interest.

#### Send No Money In Advance

Send today for free catalog showing our pictures and prices of Adler Pianos. Select the style you would like to try, and it will be sent to you free. No matter whether you are thinking of buying an instrument now or some time in the future, you will want to know a little about the fair, square and most liberal piano business. You will find it most interesting, and you will hear of some of the great pianos. We have been in business for 30 years, and we are still the same. A postal card will bring you the catalog and a book of interesting facts. C. F. ADLER, Pres., Adler Mfg. Co., 207 W. Chestnut St., Louisville, Ky.

## Children Cry FOR FLETCHER'S CASTORIA

### NEGLECT SOURCE OF WEALTH

Possible Income From Sugar Tree  
Seems to Have Been Forget-  
ten by Farmers.

Science has turned its inquisitorial  
eye more than once on the sugar tree,  
but so far has failed to solve its mys-  
tery. Investigation has merely re-  
corded certain facts; it has not ex-  
plained them. It is known, for in-  
stance, that the sugar maple is far  
more particular than the uninitiated  
suspect. For its sap to flow, nights  
must be cool, clear and still, with the  
temperature at least ten degrees be-  
low freezing; the days must be warm  
and sunny, with the temperature ris-  
ing to 30 degrees above freezing, and  
finally, there must be a fall of rain  
or of snow after four or five succe-  
ssive days of such weather or the sap  
will cease to flow.

But there is hardly more of a mys-  
tery here than there is in the fact  
that the farmer who has the trees to  
tap fails to tap them. He needs no  
demonstration to prove to him that  
the weather conditions favorable for  
the flow of sugar sap are favorable  
for little work about the farm. And  
he needs, surely, no reminder that an  
eager and profitable market awaits  
the product. Why, then, only half  
the product available is collected and  
why half of this natural resource is  
wasted is perplexing to the ordinary  
mind.

### REASON ENOUGH

He—I see no reason why we  
shouldn't get married.  
She—Did you ever look in the  
glass?

### SPEAKING OF TRIUMPHS.

"The general who wins a great  
battle no doubt feels elated."  
"I should think he would."  
"But he doesn't feel half as jubil-  
ant as the social climber the first  
time she gives a party that is at-  
tended by some people who are really  
at the head of the procession."

### THE ARCHEOLOGISTS.

"I suppose all these automobile  
stories originate with the chariots of  
the Pharaohs."  
"Very likely, I've no doubt the  
Tyre jokes are as old as Sidon."

### IT'S OFF.

"How about you and that tele-  
phone girl?"  
"She has sent me back my soli-  
tude."

"Ring off, eh?"

### NOT A WASHINGTON.

"That kid of mine chopped down  
a cherry tree the other day."  
"Ah, he will make a president."  
"I fear not. He lied about it."

### APPROPRIATE PLACE.

"Have you a history of this cen-  
tury's battles?"  
"Yes; I keep it in my scrapbook."

### Might Be Dead Today.

er from womanly troubles all my  
life, until I found that great reme-  
dy. I feel that I can't praise it too  
highly." Are you a woman suffer-  
ing from some of the troubles, to  
which women are peculiarly  
liable? If so, why not try Cardui, the  
woman's tonic? You can rely on Car-  
dual. It is purely vegetable, perfect-

### In the Face of Worries.

Here is a special reason for seeking  
society or the theater: Other people,  
in real life or on the stage (better in  
real life, of course, because there one  
has to talk back), can best pull one out  
of oneself when one's own powers are  
utterly inadequate. When actual  
causes of anxiety seem overwhelming,  
if one can be made to forget them for  
a time, hope comes into the ascen-  
dant. The best of all remedies is  
perhaps the most difficult, though not  
impossible. It is to "rise superior" to  
your troubles—to convince yourself,  
lift yourself, force yourself into the  
feeling of directorship of competent  
and confident directorship of all your  
affairs. Add "with God's help" if you  
want to, for that may back up our  
worthy intentions more even than our  
ancestors began to realize—whatever  
they professed to believe. This feel-  
ing of calm adequacy does much to se-  
cure adequacy, and what is of perhaps  
more importance, compels peace.—In-  
popular Review.

### SHIP SAVED BY SEA SALAD

Olive Oil on Troubled Waters Mixed  
With Seaweed and Is Eaten by  
Fish, Say Sailors.

Came into New York as strange  
a story of a sea-made salad as ever  
drifted past quarantine to moorings.  
It was told by sailors aboard the  
Italian freighter Francesco Ciampa,  
out of Palermo February 20 with an  
assorted cargo of lemons, olives, oils,  
spaghetti, macaroni, vermicelli, ravi-  
oli and what not.

The stay of the Ciampa in the  
Mediterranean after leaving Palermo  
was a prolonged one, due to storms  
that buffeted the Italian and had her  
alternately wabbling over on beam  
ends or attempting to poise on her  
bowprit's tip.

"Such a storm!" said the sailors'  
spokesman, Giuseppe Ferra, between  
mouthfuls of spaghetti. "Only by  
oil could we calm those seas that  
were wrecking us. Oil bags we put  
over were torn away and what could  
we use instead, now that all our oil  
was gone? There remained olive oil,  
precious to all of us, but over it  
went."

"The olive oil calmed the seas eas-  
ily. But there was so much seaweed  
floating about that it mixed with the  
oil and behold! we were in the midst  
of a salad. Soon every fish for miles  
around was headed our way. They  
finally nibbled up all the salad and  
we were able to move again. The  
storm had ceased and we passed  
through Gibraltar and so to New  
York."

### HAD HIS SHARE

Mrs. B—So you think you won't  
camp out during your vacation this  
summer?

Mr. A—No. We moved this  
spring, and I think I have had all  
the discomforts that I really need.

### ANYTHING BUT THAT.

"Do you think that if I refuse him  
he will do something desperate?"  
"Nope, he'll probably live to be  
glad of it."

"Then I shall marry him, the  
brute!"

### NOT TO BE OUTSHONE.

"Ma, Belle says the repartee at  
Mrs. Smartleigh's tea the other af-  
ternoon was simply delicious."  
"Well, dearie, find out where she  
gets it and we'll order some of it  
for our next reception."

### AFRAID TO RISK IT.

Miss Withers—Do you think you  
could come anywhere near guessing  
my age?

He—Not with any degree of  
safety.—Judge.

### ALL IN THE GAME.

Jinks—Throwing out hints won't  
make a great pitcher of a man.  
Jenks—No more than rapping out  
catches will increase the batting aver-  
age!—Judge.

### THE PROPER KIND.

"I will give the boys' athletic  
club an acrobatic lunch today."  
"What is that?"  
"One consisting of turnovers."

### OUGHT TO BE.

"Is that public man's family a  
cultivated one?"  
"It ought to be from the way  
they've been raking it up."

### PROOF OF IT.

"Why do you say that Jones girl  
is dumb?"  
"My dear fellow! Did you ever  
hear her talk?"

### ACCOUNTING FOR IT.

"Smith says he can already smell  
powder in Italy's atmosphere."  
"Oh, that's because he has a Ro-  
man nose."

## ROBERTS-BOXLEY

### Marriage Solemnized at Home of Bride Near Bell.

Prof. Harvey Roberts, of Lewisport, Ky., and Miss Judith Boxley, of Bell Station, this county, were united in marriage at 6 o'clock p.m. Tuesday. The wedding occurred at the home of the bride and was witnessed by a limited number of the friends of the young people. The ceremony was performed by Rev. J. P. Griffith, of Howell.

After a sumptuous dinner the couple came to this city and left at once for Lewisport, where they will reside.

The bride is the pretty and accomplished daughter of Mr. H. W. Boxley and is quite popular in Bell society circles. She has been a teacher in the county schools for several years.

The groom is a prominent young business man of Lewisport and has been a teacher in the schools of that section for several seasons.

The bride was the recipient of many handsome and costly presents and she was the honoree of numerous pre-nuptial social events.

## Princess

To-day's bill is Clyde Filch's great human drama of a submerged soul's conflict and triumph, "The Straight Road," featuring Gladys Hanson. It is a Famous Players Film in four parts. Miss Hanson admirably portrays the wonderful character of Moll O'Hara, the girl of the slums.

who rises above the mire of her squalid and iniquitous environment to make one of the most tremendous sacrifices of which the heart of woman is capable. How after many temptations and stirring experiences her enemy is crushed, her innocence is established and her love and faith restored is dramatically developed in the thrilling climax of this powerful film drama.

### May Go To Serbia.

That Dr. J. N. McCormack, Representative of the last General Assembly from the Bowling Green district, will go to Serbia in a short time to assist in treating typhoid patients in that country was the prediction made by several of his friends gathered at the Capital Hotel. They declared Dr. McCormack had made the statement that he would go and announced that the time of his departure, though he definitely arranged, would be within the next few weeks.—Frankfort Capital.

### The Carnegie Hero Fund.

The Carnegie hero fund of \$5,000,000 established by Andrew Carnegie for the dependents of those losing their lives in heroic effort to save their fellowmen, or for the heroes themselves when living has performed a real service to mankind. The fund is under the supervision and control of a commission. This commission has already awarded 972 medals—602 bronze, 354 silver and 16 gold. In addition to the medals, \$1,031,387 has been awarded in cash for bravery; pensions in force now amount to \$72,750 annually. For the relief of sufferers from fire, floods, mine explosions, earthquake and war the commission has awarded more than \$150,000.—Evansville Courier.

### Ouster Was Void.

Frankfort, Ky., April 28.—Judgment of the Scott circuit court in favor of Councilmen T. J. Hambrick and J. W. Thacker, of Georgetown, in their suits to regain their seats in the Council, from which they were ousted, was affirmed by the Court of Appeals in an opinion by Judge Carroll. It was charged that Hambrick had attempted to sell or rent to the city a street sprinkler, though no contract was entered into, and Thacker had sold the city some kindling, a mop and broom, all for the price of \$1.60, thereby violating an ordinance against a city officer having any contract relations with the city. Four of the seven Councilmen voted to oust Thacker, three of the remaining Councilmen voted to oust Hambrick. It requires three-fourths of the Councilmen to vacate an office, and the court held that the action was void, without going into the merits of the controversy over the transaction.

### Little But Wise.

## ANOTHER BOUT

### Morgan and Nelson to Fight at Opera House Tonight.

Promoter J. L. Tobin has arranged another boxing bout, to take place tonight at the Opera House. The headliners will be Terry Nelson and "Reggie" Morgan, also known as the fighting lawyer.

Both are men of experience. Nelson has been in the game since 1907, has fought 243 battles, including a draw with Danny Goodman who later boxed Ad Wolgast to a no decision. His longest fight was 41 rounds with Jake Able at the Atlanta Athletic Club.

His last engagement was with Jack Morgan at Nashville last Monday night, in which he gave Morgan the finish in 6 rounds.

His opponent appeared at the same entertainment, and showed up well. This is the first time the two have met, and a good bout is anticipated. Some entertaining preliminaries will be offered.

## FISHING YARN

### That Makes Local Anglers Green With Envy.

An eighty-five-pound catfish was taken from Green River at Livermore, says a dispatch. The fight between three men and the fish lasted over an hour, and was witnessed by a large crowd of people, who were on the opposite bank and could render no assistance. It was only by repeated clubbing that it was landed. A two-pound perch had first taken the hook, and it had been swallowed by the cat.

### Girl Shot.

Shelbyville, Ky., April 28.—Miss Julia Glenn was shot and dangerously wounded yesterday morning by her uncle, L. Cliff Seacore. The ball entered the abdomen, but the extent of her injuries has not been ascertained. There was absolutely no cause for the shooting, and the only plausible theory is that he was temporarily insane.

### Cut Them Dead.

Eureka "Mule Hoe" is out getting acquainted with the farmers. He is making a good many new friends, as well as holding his old ones. The Weeds and Cockle Burrs, we understand, are not friendly towards him on account of his having "cut them dead" on several occasions.

### America's Prize Beauty.

Miss Justine Johnstone, a well-known model and show girl, has been pronounced the most beautiful girl in America by several artists for whom she has posed, and is referred to as the typical American girl. Her photograph won the \$5,000 prize at the photograph show in New York.

### Interesting Fact.

Here is an interesting fact which may easily be verified: October always begins on the same day of the week as January, April as July, September as December; February, March and November begin on the same days. May, June and August always begin on different days from each other, and every other month in the year. The first and last days of the year are always the same. These rules do not apply to leap year.

### About 1,000,000.

About 1,000,000 men, women and children attended Sunday-school in Kentucky Sunday, according to reports received in Louisville by the Rev. Dr. George A. Joplin, general secretary of the Go-to-Sunday-school-day movement.

Cards were received here to-day announcing the arrival of a daughter in the home of Mr. and Mrs. Paul Twyman at Hopkinsville. Mrs. Twyman will be pleasantly remembered as Mary Virginia Hughes, formerly of this city.—B. G. News.

### Oiled Streets.

There is a strong sentiment, that might possibly be called a demand, among many people of Nashville in favor of oiling the streets. The sprinkling process, closely, does not, in these days of multiplied motor vehicles, sufficiently subdue the dust, and something more effective is desired.

The improved process is favored quite earnestly by the owners of motor cars, but still more so by those who suffer from the clouds of dust with which many of these rapidly-moving vehicles fill the air.

It is a plain proposition that oil is a more effective agent than water in preventing dust. Paved streets that have been sprinkled, dry very rapidly in the summer sun, and the occupants of the dwellings with which these streets are lined, as well as the pedestrians on the sidewalks, suffer from the dust. Those who ride in the vehicles suffer worse still. Oil is quite generally employed now, not only on city streets in many of the progressive municipalities of the country, but largely on county roads. The only question about substituting oil for the sprinkling carts in Nashville should be one of cost.

A street, once oiled will remain in good condition for a considerable time, while to water them, as is now done, necessitates going over the work with sprinklers from one to three times daily.

An investigation would probably show, on the whole, that it would cost but little if any more to keep the dust down with oil than it costs now to do it in an inferior way through the sprinkling system.

The city's financial condition, in view of the large bond issue and expenditures in contemplation, demands that economy be observed to meet the city's current obligations and pay interest on its bonds.

But if it be true, as contended by many who advocate oiling the streets, that the expense for the year round will be no greater than maintaining the sprinkling carts, then assuredly the plan of oiling the streets should be at once adopted. The present dirty condition of the streets is almost intolerable, besides breeding throat, lung and other troubles. The oil, at any rate, might be used on the most frequented thoroughfares through the residential portions of the city.

### Famous Man's Son.

Montrose, N. Y., April 28.—Frederick W. Seward, Assistant Secretary of State in the Cabinets of Presidents Lincoln, Johnson and Hayes, and son of the late Secretary of State William H. Seward, died here Sunday in his eighty-fifth year. He leaves a widow, Anna M. Seward, and one brother, Gen. William H. Seward, of Auburn.

## SOLDIER OF CONFEDERACY

### Passes Away at His Home in Kentucky Aged Seventy-seven Years.

Hickman, Ky., April 27.—Gen. Henry A. Tyler died at his country home at Oakwood farm today at 1 o'clock of Bright's disease and heart trouble. He was able to get out in his car for a ride one week ago, but his condition became worse three days ago, and his death was not unexpected.

General Tyler was one of the best-known men in the south and one of the wealthiest men in Western Kentucky. He was 77 years old the second day of this month. Until one year ago General Tyler was the commander-in-chief of all remaining Forrest troops, resigning on account of his health. For many years he had taken an active part in every Confederate reunion.

### Healer Fined \$50.

R. Maraj, a Hindu "magneto-medico healer" was arraigned in the County Court yesterday on the charge of practicing medicine without a license. It was proved that Maraj had delivered "medicine" to negro women in the county, one patient suffering from advanced tuberculosis. He had also signed insurance warranties with the initials M. D. after his name.

Maraj pleaded that he was a practitioner by virtue of a Federal copyright, giving him power to exercise his necromancy in all the states. The only cures he used were "magnetism, earth, sunshine and atmosphere." The bottle of medicine contained clay water, his school maintaining that since man is made of clay, defects and diseases should be cured by treatments with the same material.

The initials M. D., or as he said it should have been M. M. D., stood for words descriptive of his art. His explanations were of no avail and he was fined \$50 and costs.

### No Use Wasting Money.

The charitable lady was treating a pensioner to a set of false teeth. The pensioner picked out the cheapest set offered. "Don't you think it would be well to select better teeth while you are about it?" asked the lady. "I am perfectly willing to pay a little more and get good ones." "Oh, ma'am," lisped the pensioner. "What's the use of putting any more money into something that my husband will only knock down my throat the first time he gets real mad?"

## Story of Massacre.

Another wholesale massacre of Armenians by Mohammedans is reported by refugees. All of the inhabitants of ten villages have been put to death, 800 in one and 720 in another. Pools of blood still mark the execution place, after three weeks.

At the desolated Catholic mission at Horrova, where 48 victims of the massacre were buried, Elizabeth Marcara, an American girl, told how she and young David Ishmu battled with the Kurds. Her story was later confirmed.

"When the Kurds burst the village gates," said Miss Marcara, "we took refuge and mounted to the roof. I fired 80 shots. The Kurds were forced to withdraw outside the village walls."

"There I killed two and David two. Later we killed four more, one of whom was the chief. The Kurds abandoned their plunder and carried off their dead."

"Reinforced, I fled with my relatives. We saw the Kurds pillaging Hafstavan and fired on them, but they escaped with their booty."

"Near Dilman we were attacked by fifteen Kurds, of whom I killed one. After the Russians defeated the Kurds and Turks near Khot, a soldier told the Persian governor about me and he sent for me and offered me the chieftainship of a regiment of Kurds if I would fight the Russians."

## Here's The Latest.

Richmond, Ind., April 28.—Pew telephones for partially deaf members of the North A street Friends church of Richmond are being installed. The first test was satisfactory. A receiver is placed at the pew and a transmitter in the pulpit. The transmitter has a radius of seven feet and accurately registers the words of the speaker without his making any special effort. The church has an unusually large number of deaf members and it was at their request the system was installed.

## Millions in Mules.

During the time the English army men were in Nashville they bought from the Guyton Harrington Company more than 11,000 mules, and as the price of these animals ranged from \$125 to \$150, the investment in mules alone represented approximately \$1,480,000.
